Hello, I'm Sumanth Reddy Desiredreddy. Currently I'm pursuing a master's in computer science. This is my third semester at the University of New Haven.

At past I did my Bachelor of Technology in Computer Science & Engineering, so that's the reason I took Computer Science program in my master's degree.

I'm the leading person for this team. Effective teamwork is essential for project success. Team members should be able to collaborate perfectly, communicate well, and contribute positively to the group. And the teammates whom I chose are talented and they can communicate smoothly with everyone. I have known these people for the past five years, so I think that they are capable of doing this work collaboratively and we enjoy working together.

"As a team lead, I can handle the team to make our project successful."
